Summary

Product Designer with a Computer Science background, specializing in research-driven, human-centered experiences. Driven by the goal to continuously evolve and deliver world-class UX solutions. Skilled in heuristic evaluation, journey mapping, and designing intuitive products that reduce friction and improve overall engagement, from first sketch to shipped front-end code.

Education

Guru Nanak Dev University, Regional Campus

Bachelor of Technology in Computer Science & Engineering — CGPA: 8.94

Gurdaspur, India

Aug 2022 – Jun 2026

Experience

Freelance

Jul 2026 – Present

UX/UI Designer & Front-End Developer

Gurdaspur, India

- Delivered an end-to-end website redesign for a cybersecurity consultancy as **sole designer and developer** in about **2 weeks**, from UX audit and strategy to UI design and front-end build.
- Restructured **26 services across 5 categories** into one guided user journey using AI-assisted workflows.

Freelance

Aug 2025 – Jun 2026

Video Editor

Gurdaspur, India

- Delivered **40+ projects** for international clients, achieving **100% satisfaction** through precise, cinematic storytelling.
- Streamlined stakeholder communication and requirements gathering, successfully reducing overall revision cycles by **40%**.
- Engineered visual narratives using advanced editing techniques, increasing client social media engagement metrics by **25%**.

Projects

TheSecureLancer Website Redesign — UX/UI Case Study [Portfolio]

Aug 2026

- Compared **4 interaction models** and chose a **side drawer** to explain each service without leaving the catalogue.
- Replaced a **5-field** upfront contact form with a **3-step** flow and added **Recon**, an AI helper limited to the site's own content.
- Conducted usability testing that exposed and fixed a hidden issue in the contact flow.

Crunchyroll App Redesign — UX Case Study [Behance]

Apr 2026 – May 2026

- Analyzed **496 relevant user reviews** to find key friction points: playback and controls (**49%**), queue and syncing (**31%**).
- Benchmarked JioHotstar, Prime Video, and YouTube, then redesigned **3 key moments** (Resume, Control, Manage) around visible shows, in-player controls, and intent-based queue actions.
- Conducted usability testing with **5 users each**, raising task success for removing a show from **20%** to **100%** in under 10 seconds and completing speed changes in under 4 seconds.

Epic Gains — Gamified Fitness App UX [Figma]

May 2026

- Designed end-to-end UX for a beginner-focused fitness app in a **28-hour hackathon**, placing **2nd in the Classic Track**.
- Built a **5-step guided onboarding** and a Pokémon companion that mirrors workout consistency; praised by judges for user journey and UI.

Certifications

Google UX Design Professional Certificate

Jan 2025 – Oct 2026

Coursera

Online

- Gained experience in user research, wireframing, prototyping, journey mapping, and usability testing methodologies.

Responsive Web Design

May 2024 – Jun 2024

FreeCodeCamp

Online

- Acquired proficiency in HTML, CSS, accessibility, and modern responsive design principles.

Technical Skills

Design: Wireframing, Prototyping, Design Systems, Information Architecture

Research: User Interviews, Usability Testing, Heuristic Evaluation, Journey Mapping, Behavioral Analysis

Tools: Figma, FigJam, Notion, HTML, CSS, Adobe Lightroom, Claude

Soft Skills: Systems Thinking, Storytelling, Stakeholder Communication, Iterative Design

Achievements

- Won **2nd Place** at Protothon 2026 (Dubstech x Design Buddies) for designing a gamified fitness product.
- Founded the first book club at Guru Nanak Dev University, hosting weekly book discussion sessions.
